

Pet Camping & RV Packing Checklist

From Biscuit the Camping Bulldog — vet-first travel for every pet

Hi, I'm Biscuit — this is exactly what mama and daddy pack before we roll out. **Print it or keep it on your phone**, and add anything that helps your own crew travel safer.

Check everything off before you roll out:

1 Safety & Documents (All Pets)

- ☐ ID tags + microchip number written somewhere accessible
- ☐ Current rabies / vaccination records (photo + paper copy)
- ☐ Pet insurance card or policy number
- ☐ Emergency vet list for the areas you'll travel through
- ☐ Recent clear photo of your pet on your phone
- ☐ Leash / harness / carrier appropriate for your pet
- ☐ Waste bags or litter supplies

Tip: Keep all of these on your phone, ready even without signal, with Biscuit's free Pet Papers card at biscuitthecampingbulldog.com.

2 Food, Water & Feeding

- ☐ Food for the full trip + 2-3 extra days
- ☐ Travel bowls or collapsible dishes (at least two)
- ☐ Dedicated water for your pet
- ☐ Treats or favorite extras
- ☐ Any daily medications + backup doses
- ☐ Measuring scoop if needed

3 Comfort, Sleep & Temperature

- ☐ Bed, mat, or familiar blanket that smells like home
- ☐ Cooling option (mat, elevated cot, fan, or cooling towels) — critical in heat
- ☐ Shade for outdoor time (cloth, pop-up, or umbrella)
- ☐ Something familiar that reduces stress (toy, pheromone wipe, etc.)

4 Containment & Safety at Camp

- ☐ Secure carrier, crate, or portable playpen
- ☐ Long line or stake-out for supervised outdoor time (dogs)
- ☐ First-aid basics (bandages, antiseptic, tick remover)
- ☐ Night-time visibility (reflective tag or light)

5 Dog-Specific Extras

- ☐ Backup leash and harness
- ☐ Poop bags (more than you think you need)
- ☐ Paw protection for hot pavement or rough ground
- ☐ Portable playpen / exercise pen if you use one

6 Quick Notes for Cats & Small Pets

Cats: Secure carrier, familiar litter box setup, pheromone spray/wipes, hidey-hole or covered bed, extra litter.

Small mammals / birds: Secure travel cage, extra bedding, familiar hide, temperature control (they overheat or chill fast), spare food & water bottles.

HEAT WARNING — ESPECIALLY BULLDOGS, FRENCHIES, PUGS & SHORT-NOSED PETS

Never leave any pet in a parked vehicle or camper without confirmed working A/C. Heavy panting, thick drool, or reluctance to move = emergency. Get into air conditioning and call the nearest emergency vet.

This checklist is a suggestion from **Biscuit's Board of Directors** — our way of helping the Pack travel a little safer.
